TMA 03

The assignment

Cut-off date: 9 June 2020

Important: These pages provide guidance on how to write your assignment. Please ensure you read all of this information right through until the checklist at the end.

Other information on Assessment Guidance for this module can be found here. Additional support and guidance including advice on plagiarism, referencing and the marking system can be found here in Social Sciences Assessment Information. These links direct you to Faculty policies on certain matters which you need to follow when you are writing your assignments.

Please do consult your tutor if you are unsure about anything related to assessment as failure to comply with relevant guidance could result in the loss of marks or other penalties.

There are **three parts** to this assignment (all of which must be submitted). One whole study week is allocated to completing it.

Part 1: Essay

Evaluate the usefulness of non-intrusive (observational or interview-based) approaches to studying attachment.

70 per cent of the mark
